Dr. Emandi Sankara Rao
New Delhi

Acknowledgement for your Mentoring Contribution to Stones2milestones

Dear Dr. Rao,

Greetings from Stones2milestones Team!

As we completed 5 years since the launch of our product Freedom, we were recounting all the people who made this journey possible for this baby Startup Stones 2 Milestones. The journey began in Oct-2015 and i vividly remember my conversation with you to share the idea. We now work with more than 300,000 children in India and recently started operations in Korea as well.

We are truly grateful to have your active participation in our journey from ideation to product development and subsequently in any aspect where we could have leveraged your wisdom and network. During this journey so far, we were also inspired to know how actively you have been contributing to education, research and social impact areas.

We would continue our practice of sharing our monthly updates and requests which has been a great way to access your resourcefulness from time to time. One of the areas where we are planning to set up a separate advisory board is on "Policy Advocacy and Government Partnerships". We would like to invite you for leading this Advisory Board for the mission.

We truly appreciate your commitment to our mission for the unconditional support that you have provided. Thank you so much

We look forward to hearing from you.

Thanking you!
